

CLOSING DAYS OF THE CAMPAIGN ARE QUIET IN FAYETTE COUNTY.

Judicial Fight Will Go Down in History as One Marked by Lack of Enthusiasm Characteristic in the Past.

THE DISSEMINATORS ARE SAD

Complain Because the Democratic Managers Have Not Loosened Up. Deputy Sheriff Charlie Fee Declares For the Democratic Candidate.

A week from today the Fayette county campaign will be history. Unless a lot of ginger is injected into it between now and Saturday it will go down in the records as a quiet political fight. Naturally it all centers in the judgeship contest. There is nothing else to it. Not as much interest has been aroused up to date in Connellsville as in a municipal campaign for Council. Scarcely a ripple of judgeship politics has disturbed the equanimity of the country districts. Whatever work has been or is being done is so quiet it has not come to the surface.

If the campaign has moved in any direction since Saturday it has ebbed, instead of marking the beginning of a flood-tide of enthusiasm. This is especially pertinent to the Democratic situation. The aim is painful, and some say ominous, for the Democrats. Spontaneously the judgeship election promised torrid politics. Uniontown has been the usual center. Horatio Sparks Dumbauld, playing the role of political confessor, has occasionally broken the stillness of the County Seat with broadsides whose roars have reverberated throughout the county and reached from every corner thereof. His guns are aimed against Judge Robert E. Umbel, who defeated him for the Democratic nomination. But little or no damage was apparent. Except an instance or two the enemy withheld fire, preferring seemingly to reserve its strength and ammunition for the last days of the campaign.

Old campaigners in judicial fights say the race has dwindled into a pink ribbon affair. Here in the last lap it lacks that state of congested enthusiasm so characteristic of other memorable judicial campaigns in "Old Fayette."

The Democratic managers have flooded the mails and swamped the newspapers with arguments and facts regarding a non-partisan judiciary. The Republicans promptly charged the Democrats with distorting their facts to suit their fancy. So it has gone along, each set of managers accusing the other of being out of bounds nine minutes out of every ten and appealing to the voters of the county as referee to listen to their protests. And all the time the muffled is kept out. Interrogate any of the hitherto inquisitive party enthusiasts and his wife will shrink behind his larny and refuse to come out. Maybe if you know him real well he will reply:

"Nobbin' to say—that is not out loud."

Approach a district leader on the judicial situation and he will wake up with a shiver and start home for dinner from force of habit. The Disseminator? His face bears an indelible translation of his feelings. Sunlight soars when it lights on him these days. It is a season of sordid gloom and sadness. It takes the iron men to whom things up, he says; and they are not rolling, at least not yet. One of them, an Umbel supporter, and a wise one, too, said to The Courier representative last night:

"Getting up political enthusiasm the way our fellows are trying to work it up in this campaign is like trying to get that world-wide feeling on an ice cream soda. You can't get credit on good intentions. You got to endorse them with action. Besides you can't put a political deal through according to the ethics of the Sunday school. It wasn't made that way, and you can't switch the rules of the game to accommodate it. Let the campaign go along at the same pace it is traveling now and the deal is liable to backfire next Tuesday and blow the whole bunch of us into the discard. It reminds me of a correspondence school. Slow? It's a Cynosure race."

"Maybe the Civic Leagues have 'em scared. The Leagues any way are out to regulate. Did you ever see a farmer's dog try to regulate a 60-horse power automobile on a good stretch of road with a reckless chauffeur at the wheel? Same thing."

"There's another discouraging feature. Two Uniontown Democrats are running out end of the campaign. If you try to give them any advice they look as insulted as King Edward might if the milkman pulled his whiskers. They tell you to get out and keep conversation in the proper channels. Well it was a dull summer. We keep the conversation flowing

smoothly with thoughts of coal bills, rent and winter clothes due at home? Not by 75 millions."

The sentiments of this professional Disseminator are a pretty fair sample of the feelings of a majority of the "practical" politicians throughout the county. On the Republican side no money is expected. There seems to be a tacit understanding among the purchasable vote that there will be nothing doing in that line by the Republican managers on election day or before it. No inference is intended here that money has been or will be used by the Democrats. But the fellows who resolved money in previous campaigns in the county expect it from that source and are disgruntled because they have received no assurances they are to get it. That's how they work; that's the only way they have in mind of securing votes. They have worked that way in the past and they don't want to learn new methods. Besides it gives many of them a reason of influence which comes seldom. An honest campaign is one which does not appeal to them.

Much attention has been paid to the foreign vote in the county. Educational clubs and societies have been organized and chartered in many of the coke district towns. Newly naturalized citizens have been inducted into membership by the score. The Professional Disseminator is expected to do the rest.

Conservative political observers believe the vote in Connellsville and Uniontown will decide the judgeship. The Umbel supporters are busily making much of their hope for victory on the showing made for Judge Umbel in these two big towns. As is well understood, there is some disaffection on both sides. On the Republican side not a few men who have always been faithful in their fealty to the Republican ticket are said to be surreptitiously trying to direct sentiment toward the Democratic candidate. On the other hand Judge Umbel will lose not a few Democratic votes, if street talk among the rank and file of Democratic voters is any indication.

Deputy Sheriff Chas. M. Fee, two or three times elected Constable on the Republican ticket in Uniontown, and on several occasions candidate for county office at the Republican primaries, announced in Connellsville yesterday that he is out for the Democratic candidate, Judge Umbel. Fee is chief field deputy for Sheriff P. A. Johns, Chairman of the Republican County Committee. The announcement he openly made here yesterday came as a shock to a number of well known Republicans to whom he made a short speech on Pittsburg street. He said: "Every tub must stand on its own bottom in this fight. I am for Bobby Umbel. I am going to vote for him. We are going to help the fellows who help us in this fight."

A well known Republican and office holder in Connellsville asked Deputy Fee if that was not pretty strong talk. He replied that maybe it was, but that he had expressed the situation exactly.

Republican Central Committee men of Connellsville this week received letters from Republican County Chairman P. A. Johns that they might send in the names for watchers in their respective wards, but that there is no money in the treasury with which to pay them for their services next Tuesday. One local committeeman sent word to the County Committee that if the treasury is shy for watchers, would he would pay his own watchers next Tuesday.

The latter sent out is as follows: Please send me the names of three persons to act as watchers in your district on November 2. There is no money in this job, therefore you and your brother committeemen should join hands and select the three persons you want, and only three can be appointed for each party. Neither the candidates nor the chairman have anything to do with it. Please attend to this at once as it takes considerable time to have the certificates made out and mailed to you.

On reliable authority it was stated last evening that there is a balance at present of \$900 in the treasury of the Republican County Committee.

NEW VOTING PLACE. For First Ward in the Basement of City Hall.

The First Ward is to have a permanent voting place in the basement of the Public Building. It was decided this morning that the room in the basement, formerly used as a hose room, should be fitted up for voting purposes. The Keystone Lumber Company will begin the construction of booths there as soon as a concrete floor is laid.

Measurements were taken this morning by the contractors and work on laying the floor will probably begin this afternoon or tomorrow morning.

DIRECTORS TO MEET ONCE MORE.

Another Session of Chamber of Commerce Is On This Afternoon.

MANY MATTERS TAKEN UP

Board of Directors Did Not Have Time to Complete Its Business So an Adjournment Was Taken Until Today—To Boon the Yough.

The Board of Directors of the Chamber of Commerce met yesterday afternoon but there was such a mass of detail to be disposed of that a subsequent meeting this afternoon was necessary. As a consequence the Board is holding another session in the rooms this afternoon, at the conclusion of which it is expected that everything will be whipped into good shape and plans arranged for placing the Chamber of Commerce on a business basis. The Williamsport plan of a guaranty fund was discussed in brief and will be taken up in detail this afternoon.

Nothing was done in regard to the merging of the Merchants' Association with the Chamber of Commerce. This will be taken up at a later session if it is not broached at the meeting this afternoon.

Theodore Lampert, representing a Pittsburg newspaper which is boasting the canalization of the Youghiogheny river once more, appeared before the meeting to learn the sentiment of Connellsville towards the matter. He stated that McKeesport and other Yough valley towns are still interested in keeping the matter alive. A vote was taken and it was unanimously in favor of giving the matter the hearty support of the Chamber of Commerce.

PEACE AT HOME NOW; MRS. VAN DENMAN SOARS

Wilbur Wright Makes First Flight With Woman and Husband Is Happy.

United Press Telegram.
WASHINGTON, Oct. 27.—Wilbur Wright today, for the first time in this country, took a woman up with him in an airplane. Mrs. Ralph Van Denman, wife of a United States Army captain, was so honored. After four thrilling minutes Mrs. Van Denman, smiling, jumped from the passenger seat to the ground.

"Oh, dear me, it is simply grand," was her exclamation upon reaching terra firma once more.

The flight was arranged with utmost secrecy. Captain and Mrs. Van Denman went to the aviation ground early this morning. Newspaper men noticed the captain and his wife and lingered near the shed, but had no intimation of the flight until suddenly they saw the woman in the seat with her long coat tucked about her.

Wright and Lieutenant Lahm tied the bottom of the cloak with a string and the start was made.

The airplane circled about the field twice at a height of about 80 feet. In conclusion Captain Van Denman thanked the aviator. "We can have peace at home now," was his laughing remark.

MASS MEETING FOR CLEAN POLITICS.

Gathering of Church Workers at Brownsville Held Last Evening.

THEY WILL GO TO THE POLLS

On Tuesday and Make an Effort to Prevent Illegal Voting—The Movement Not in Interest of Any Particular Candidate.

Special to The Courier.
BROWNVILLE, Oct. 27.—The members of the various Sunday schools at Brownsville got together last night and made a determined protest against crookedness at the polls, declaring for clean politics and appointing the entire number of workers as a committee to watch at the polls on election day to see that the voting is legal.

It was a gathering of 100 representative citizens of the town and was called for the purpose of considering a plan of action on election day in order that detection and punishment may follow any wrong doing. The meeting was non-partisan and was not held in the interest of any candidate.

A resolution was passed that every man go to the polls on election day and endeavor to see that things are run right and that if anything is illegal to make information and have the guilty party apprehended. The resolution declares that the rights of the ballot are sacred and should be preserved. The action of the Brownsville body was recommended to all Christian men and all Bible classes in the county were requested to act in a similar manner.

The resolution declares that the 40,000 Sunday school scholars in the county cannot afford to have the rights of the ballot infringed upon by dishonesty.

DIED OF BURNS.

Miss Annie McGiffen, Old Resident Here, Expires at Washington.

As the result of burns sustained on Monday morning, October 11, Miss Annie McGiffen, aged 82 years, and a former well known resident of Connellsville, died at her home at Washington, Pa., a few hours after the accident. Miss McGiffen was standing before an open grate in her bed room when her garments ignited. Her screams attracted a neighbor, who found Miss McGiffen enveloped in flames. At the risk of her own life she extinguished the flames with a blanket and the victim was hurried to the hospital where she died.

Miss McGiffen spent practically all her life in Connellsville and was better known by her many friends as "Aunt Anne" McGiffen. Several years ago she went to Washington, Pa., to make her future home. She was a sister of the late Col. Norton McGiffen, a soldier of the Mexican and Civil wars.

SPITTLER'S CONDITION.

Injured Miner at Hospital Is Somewhat Improved.

The condition of Henry Spittler, who is at the hospital with a broken back as the result of an accident in the Davidson mine some weeks ago, and which resulted in the death of Andrew Rodger, continues the same. Mr. Spittler is somewhat improved. He is able to move slightly to one side and rest in that position.

This is a recent accomplishment, for up to the present he could only lay upon his back and to turn in any direction caused considerable pain. Spittler retains his good spirits and while falling away in flesh, is somewhat improved in spirit.

MEET TONIGHT TO DISCUSS PARADE.

Plans Well Under Way for Fantastic Turn Out Here Next Saturday Night.

BURGESS EVANS IS INTERESTED

He Will See That There Is Lots of Red Fire—Tenth Regiment Band May Make Music—All Sections of Town Represented.

Plans for the Halloween fantastic parade which is advocated by Burgess Evans will be discussed tonight at a meeting to be held in the Y. M. C. A. building and to which all interested are invited. A tentative committee has been appointed, which gives all sections of the town representation, but the session this evening is not confined to the committee members. Changes in the personnel are to be made this evening.

Considerable interest is being manifested in the project Burgess Evans is taking it upon himself to see that there is a good supply of red fire and next Saturday night things will break loose that will give into innocent amusement for those who care to participate.

Efforts are being made to have the Tenth Regiment Band out that night. Several members have expressed their willingness to participate and it is not unlikely that they will also adopt fantastic costumes.

No prizes will be asked of the merchants this year, the committee feeling that sufficient demands have been made upon them in this respect. The evening tonight may develop some new and unlooked for features.

MANY FOREIGNERS ARE ARRIVING DAILY

Returning Prosperity Shown by the Number of Foreigners Who Are Coming Here.

More signs of returning prosperity are in evidence but one of the best is the constant arrival of foreign laborers into the region. For some months past these foreigners have been flocking into the country from all parts of Europe, but most of them continued Westward.

Now they are beginning to populate the coke region again. Every day brings a new detail. Yesterday a large group of Italians came to Connellsville and were sent to various works about the region by Baker P. Bufano.

Both Mr. Bufano and F. A. Kall are daily directing these laborers to various points near Connellsville where they may secure employment. The arrival of every new detail relieves, in a measure, the labor situation which has retarded development.

SUPPLY COMES FROM YOUGH

Another Improvement at the Power House is an Electric Hoist For Automatically Dumping Cars—It Is a Great Labor Saving Device.

Conservation of water is a growing idea in the Connellsville coke regions and at least three large concerns have made provision for a permanent water supply, while many of the small coke operators have perfected their supply by drilling wells.

A 5,000,000 gallon reservoir is nearing completion at the West Penn power house at Greene Junction. The Taylor Coal & Coke Company is completing a 45,000,000 gallon reservoir at its plant at Seagriffs and the Richard Coal & Coke Company has its 25,000,000 gallon reservoir at Star Junction completed.

During last summer a water famine threatened many plans and towns and the companies then began to realize what it would mean if business was at its best to be without water. Many of them began the construction of reservoirs and many also sunk wells to supply feed tanks, making their supply at all times certain. The West Penn Company had great difficulty during the low stages of water to get sufficient for their boilers and a dam was finally constructed across the river after many ditches had been dug and stones laid to divert the stream into its well. The Trotter Water Company had to take similar measures and as it was pumping an enormous supply to its reservoirs and also helping out Uniontown, the West Penn was compelled to take second place in the fight for water.

The reservoir is located just above the power house between the Baltimore & Ohio tracks and covers a space of 70,000 square feet. The work of its construction was in charge of C. W. Kenney of the West Penn engineer's office. A solid wall backs the reservoir and it has a brick facing. The feed is directly into the boilers.

Another improvement made at the power house is an electric hoist for automatically dumping cars. A small hoisting house has been erected on the extreme wall facing the river. The cars are shunted into the siding and are picked up and dumped into the coal bins in a few seconds. It is one of the labor saving devices of the plant.

No News Secured of Missing Boat Load Which Floated Off Into Night.

United Press Telegram.

EASTPORT, Me., Oct. 27.—Failure to hear any news of the missing boatload of passengers and crew of the Donaldson liner Heista, wrecked on the rocks off Grand, N. P., has convinced shipping men that the boat is lost. This brings the death list to 35, five of whom were passengers.

Only six persons were saved of the 41 aboard the liner. These were the six members of the crew who stayed aboard when the last boat was lowered. The first boat lowered was immediately dashed to pieces. The missing boat was so badly crowded the masts could not be used and it drifted off into the night.

The rescued men are so exhausted they have been unable to give the passenger list yet.

The flight of Lieutenant Lahm last night was remarkable not only for its length, but for the fact that most of it was made in darkness.

Ask your Pharmacist for a 50 cent box of Diapepsin and take a little just as soon as you can. There will be no sour risings, no

belching of undigested food mixed with acid no stomach gas or heart burn, fullness or heavy feeling in the stomach. Nausea, Debilitating Headaches, Dizziness or Intestinal griping. This will all go, and, besides, there will be no undigested food left over in the stomach to poison your breath with nauseous odors.

Diapepsin is a certain cure for out-of-order stomachs because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach wasn't there.

JUDGE UMBEL UNFAIR TO LABOR, SAID GENIUS THREE YEARS AGO.

"Paint This in Your Mind" Cartoon Based
Upon Tri-State Telephone Labor
Trouble Germane in This
Campaign.

"FLEECE OF WOOL" WILL NOT DECEIVE NOW.

DEMOCRATIC CANDIDATE'S ATTITUDE TOWARD ORGANIZED LABOR AND HIS BOAST OF HAVING BROKEN STRIKE IN 1903, AS REVEALED IN LINESMEN'S STRIKE OF 1906—HIS PRESENT APPEAL TO LABOR FOR SUPPORT.

It "in the stocks."
The Genius tried to incite the people to contract for the Bell phone instead, the Mr. Cooper in the picture above being a Bell telephone solicitor.

The people were in sympathy with the The Genius in its fight against Umbel and tyranny.

Read in the left hand column below the union men's arrangement of Judge Umbel, as printed in The Genius at that time. Then read the right hand column which recites some of Judge Umbel's present campaign advertising of himself written by himself. Who does not think of the old expression, "a wolf in sheep's clothing," on reading these parallel columns? Umbel has prepared a nice "fleece of wool" in which to pose as a friend of the laboring man, but they saw him make the lightning change and are not fooled. They know him.

Copied from an Evening Genius of three years ago. A view of Judge Umbel then:

Backed by Judge Umbel, who is a bitter opponent of union labor, thinking that the laboring people have no right to organize, and if they do or-

ganize that they have no right to entertain grievance against their arrogant employers, the directors of the Tri-State Telephone Company have placed themselves in an attitude towards the public. Manifestly, they have been unfair to the striking linemen, and now declare, at least Judge Umbel, the President, says so, that they never will renege some of them, and that they can get along without any of them.

Judge Umbel says that he (the judge) broke a strike in 1891 in this county and can break another one now. Injunctions are wrongfully held against some of the linemen, and it is asserted that Umbel should either resign as judge or else resign as president of a great corporation. If he means to throw down the gauntlet to the laboring people, slap them in the face, insult poor, struggling humanity, then the people assert that it is high time to look for a judge who will not be an oppressor. No judge should be president of any corporation where he can use his wonderful power to oppress the employees and secure injunctions for the asking. A fight is on, and on to the bitter end.

The Trades Union has taken it up for the linemen and both the Conneltsville and Uniontown councils have endorsed them in their efforts to better their condition.

Selected from the present campaign articles about Judge Umbel written by himself.

"Good laws are never really useful and beneficial to the masses until

they are properly administered, and this fact should never be lost sight of, particularly by those who work for wages." * * * Robert L. Umbel has made a most remarkable record as judge.

"Fortunate indeed are citizens of the district that they have again an opportunity to vote for and elect a man of the unimpaired and unquestionable integrity of Judge Umbel, and for a judge whose esteemed knowledge of jurisprudence and whose impartiality and honesty of purpose have become proverbial throughout Western Pennsylvania." * * * His impulses are toward the poor and the struggling. * * * From the standpoint of labor, Judge Umbel has in every sense whatever proven himself to be the kind of a judge that wage earners desire. The truth is, he is an ideal judge from a labor point of view. From the other viewpoint, he has become famous entirely because he has given the poor man the wage tender, a "sneak-deal." * * * This is not said or written in any tone of satire, nor in any more spirit of flattery, it is said in deep, deep earnestness to men who know today what is the struggle for bread and butter, and who remember the trials and sufferings of a boyhood that demanded physical labor of the most exhausting kind. * * * It is entirely unnecessary to have recite the grand success of Judge Umbel as a lawyer. * * * And so it is that it really becomes the duty of every wage worker in Fayette county to vote for Judge Umbel."

OUTLET TO SEABOARD.

Coal Purchased by J. V. Thompson
Renews Old Rumors.

Since the return of J. V. Thompson from West Virginia where a purchase of 2,000 acres of coal was made in Marion county, the rumor of a new outlet to the seaboard has been renewed.

The rumored line will extend along the Monongahela valley, through Marion and Harrison counties, W. Va., to a connection with the Kanawha &

Michigan and the Virginia railroads. This will give an outlet to both the Atlantic seaboard and the Great Lakes. More than 21,000 acres of coal land in Marion and Harrison counties are held by Mr. Thompson and associates.

Taft Throws a Wet Blanket
on Mississippi River
Boomers.

IS FIRM AGAINST BOND ISSUE

President and "Uncle Joe" Fighting
Out the Waterways Question on
Long Cruise Down the Mississippi
River—Their Views Differ Radically

Hickman, Ky., Oct. 27.—President Taft and "Uncle Joe" Cannon, on the long journey down the Mississippi river, are fighting out the question whether or not bonds should be issued for the improvement of inland waterways. Speaker Cannon will be found supporting Mr. Taft in the recommendation provided the president cannot be dissuaded, but the speaker will do his best to get him to change his mind.

"Uncle Joe's" enemies are saying that his support of a bond issue would be only a partial fulfillment of promises made by the Republican leaders in congress when President Taft signed the Payne tariff bill. In the meantime, however, the speaker is showing on this cruise down the river that he differs radically from the president on the proposition. The president in one of two of his recent speeches has condemned the plan on which the waterways improvements have been carried out.

Laurel the Contract System.
At Cairo the speaker landed the contract system before the president's face. "It has operated well," said he: "hundreds of millions of dollars have been expended. It is a good system. It has brought order into the method of doing the government work and I am for the system."

Again paraphrasing Agrippa's reply to St. Paul, "Uncle Joe" said, turning to President Taft:

"Thou almost persuaded me to be as thou art, save as to these bonds."

He went on to say that there was no necessity for the issuing of bonds until the plans for the improvements had been definitely settled and the plans for the work had been assumed.

"We can pay for the plants," said Uncle Joe, "from our ordinary revenues, to be sure we are right before we go ahead."

The speaker's speech was a sort of a wet blanket for the bond issue. He said that the bond issue was a sort of a wet blanket for the bond issue. He said that the bond issue was a sort of a wet blanket for the bond issue.

Nearly all of the delegates who are attending their course over the Mississippi river said bonds are a rootling evil for a deepening of that river into a fourteen-foot channel. That was the improvement which is pressing. That is the one for which congress must authorize bonds in the next session.

A Cruel Blow to Mississippi Boomers.
President Taft has indicated that the Mississippi can wait until the Ohio river improvements are finished. It was a cruel blow to the junketers here. They have three days more of this sand bar dodging cruise ahead of them, and the president has taken all the wind out of their sails so far as the next session of congress is concerned.

"It seems better," said the president, "to push first the completion of the Ohio river improvements as a demonstration of what can be done and then take up the Mississippi. Perhaps that plan won't meet the views of the people in the Mississippi valley and therefore I don't want to congratulate themselves that I haven't the power to dwell on the subject."

LAIES CLAIM TO FORTUNE
Penniless infirmity inmate to Sue For Big Estate.
Washington, Pa., Oct. 27.—Coming from an infirmity at Wheeling, W. Va., penniless, Mrs. Sarah P. Mounts created a sensation in Washington by declaring she was the legal wife of Joseph Mounts, who died here nearly a year ago, leaving a fortune of \$50,000.

Mrs. Mounts engaged counsel and says she will fight to recover the entire estate. She says she has witnesses to show she was married in Wheeling many years ago, but was never known as Mounts' wife among his Washington relatives. Shortly before Mounts' death she says she was stricken with paralysis, and, having no money, was removed to an infirmity.

Captain Brings Ship Into Port Without Bill of Health.

Mobile, Ala., Oct. 27.—Unless Captain Hansen of the Norwegian ship Hording can show Uncle Sam good and sufficient reason for entering one of his ports without a bill of health issued by one of his consular agents his ship may have to pay a fine of \$5,000 assessed against it by Collector of Customs.

While Captain Hansen is supplied with a bill of health issued by Norwegian and Portuguese consuls, he does not possess one from the American consul at the port of departure, which would enable him to enter an American port.

Colonel John Sneed's Conversations on Domestic Problems

Copyright, 1909, by C. S. Yost.

II.—The Disillusionment of Matrimony.

ON his way downtown the other morning Colonel Sneed stopped at his daughter's house to deliver a lemon pie recipe entrusted to him with some misgivings by Mrs. Sneed. The front door was ajar, and, assuming the prerogative of a father, he entered without ringing the bell.

Young Mrs. Rollins was not expecting a visitor at that hour. Her attire was decidedly negligee. She had evidently slipped into the first thing that came handy when she arose and had deferred until a later and more convenient season most of the essentials of a woman's toilet. It is unnecessary to go into details.

"Good morning, honey," said the colonel as he bent down for the affectionate salutation, and then as his eye took in her deficiencies he exclaimed:

"Why, child, what's the matter? Not sick, are you?"

"Oh, no, papa," replied his daughter, with a laugh. "I'm all right. But you shouldn't call on a lady so early, daddy, dear. I haven't dressed yet."

"Oh, honey, I say," he insisted, "I make an almighty lot of difference, don't I? Never caught you looking that way before you was married. Does—does William—was you wearing that garb, honey, when he left you this morning?"

"Why, of course, papa. I can't dress before breakfast, like I was going to a ball, can I? I have to do all my housework, and—"

"Yes, I know," interrupted the colonel, "but—have you got the habit of going around in that?"

"Appearances count," "I'm afraid I'm a whole lot," have, papa. But what is one to do? It takes time for a woman to dress. I have to get breakfast for Will. I can't cook or attend to any housework in my nice clothes, and even if I could it would take me so long to put them on he'd be late to the office. You know I'm without a servant just now, but if I had one I don't see how I could dress for breakfast. Besides, papa, all women go the same way in the morning."

"Yes, honey, I know the argument, but have you ever had your photograph taken in that morning costume?"

"Why, no, papa. Of course not."

"And if you had," went on the colonel, "would you want Bill to put it in a silver frame and sit it up on his desk where he could see it all day?"

"The very idea! I'd like to catch him making a show of me that way."

"Well, little girl, that's about what he does in fact. He carries a photograph of you all the time. It isn't on his desk, where other people can see it. It's fixed in a golden frame in front of his mind's eye, and he takes a long look at it. It isn't always the same picture he sees. Most of the time it's you as you would like to be seen, fixed up your prettiest, but sometimes it's you as he saw you last, as you looked when he left you in the morning."

"You know, dearie, you're mighty apt to remember a person by the appearance at parting, and the oftener Bill carries away with him a vision of breakfast time downiness the oftener it's gold to pop into his

view during the day until after a while it's gold to throw out the other picture entirely."

"Apostrophes count for a whole lot in this world, and I believe they count for more in a man's soul's toward a woman than in anything else. In nine cases out of ten it's appearances alone that attract a lad and a maid. That's part of the Almighty's scheme for bringing men and women together. Every girl wants to look her best when her beau's comin' around, and that's right, that's nature, didn't you dig up in the nicest clothes your pa's money could buy for you when Bill was doin' his courtin'?"

"Didn't you prance around before a lookin' glass for an hour at a time tryin' to get everything just so and look your prettiest for him?"

"Of course you did. And he's still carryin' some of those pictures around in his head, and once in awhile he gets them out and won-

ders why there's such a difference. 'There isn't any real difference, honey. It's just appearances. You haven't lost any good looks since you married. You're just as pretty and as sweet and as good as you were then—maybe a little more so. When you're all fixed up in the evening I have to admit that Mrs. William Jackson Rollins don't play second fiddle to Miss Sallie Sneed. You're all right then, little girl; you're all right now. But appearances have just as much to do with keepin' a man as they have with gettin' him, and the moral's appearance has more influence than the evenin', for it stays longer; it goes downtown and spends the day with him."

"Now, I'm not sayin', my dear, that a woman ought to rig up in her best

clothes before breakfast and go through all the funny business of a reception toilet. I don't mean that—act by a whole heap. That would be no more right than for Bill to go down to work in a full dress suit. There's a thing for all things, as Shakespeare or Solomon remarked some time back, but I don't know of any proper time, honey, for absolute kimonoes, untied shoes and unkempt hair. These wrapper things the women have got to wearin' nowadays ought to be prohibited by law, if that would do any good. They were designed, I reckon, for the hours of luxurious ease and for loungin' in around in a boudoir. Maybe they ain't so bad. But they wasn't cut out for workin' girls. There's no much of place in the kitchen as a velvet gown. Yet it's got so that half the women in this country fall out of bed every mornin' into more or less soiled and bedraggled kimonoes. I think I'd be willin' to see a war with Japan just to get even with her for this kimono habit. It's a lazy dress, and I tell you, honey, it's downright demoralizin'—that's what it is. It's so easy to get on it makes a woman careless about everything else. Instead of bein' neat and trim as she ought to be in the mornin', whether she's doin' her work or overleasin' it, she gets to lookin' dowdy and slouchy. You can't help it, little girl; it's the influence of the garb. And I'd be willin' to bet a horse against a second hand burro' and here the colonel pointed out the case of his own wife with his finger, "that's a woman who have had a good deal to do with what they call the matrimonial unrest. A man goes off downtown leavin' his wife lookin' like she'd just stepped out from a fire sale, and the first thing he puts his eyes on at his office is a stenographer in a clean shirt waist. If you think I don't notice the difference you're badly mistaken, my dear. Maybe he don't make eyes at the typewriter girl, maybe his love is so strong it don't affect his feelings the least bit, but all the same he notices it. And I wouldn't take the risk, honey. But—my, my!" the colonel was looking at his watch—"I can't stay here all day preachin' to you. I've got to get down to the office. So goodbye, little girl, and—say, I'll be over this evenin' to see how you look."

"BEFORE A LOOKIN' GLASS."

They were designed, I reckon, for the hours of luxurious ease and for loungin' in around in a boudoir. Maybe they ain't so bad. But they wasn't cut out for workin' girls. There's no much of place in the kitchen as a velvet gown. Yet it's got so that half the women in this country fall out of bed every mornin' into more or less soiled and bedraggled kimonoes. I think I'd be willin' to see a war with Japan just to get even with her for this kimono habit. It's a lazy dress, and I tell you, honey, it's downright demoralizin'—that's what it is. It's so easy to get on it makes a woman careless about everything else. Instead of bein' neat and trim as she ought to be in the mornin', whether she's doin' her work or overleasin' it, she gets to lookin' dowdy and slouchy. You can't help it, little girl; it's the influence of the garb. And I'd be willin' to bet a horse against a second hand burro' and here the colonel pointed out the case of his own wife with his finger, "that's a woman who have had a good deal to do with what they call the matrimonial unrest. A man goes off downtown leavin' his wife lookin' like she'd just stepped out from a fire sale, and the first thing he puts his eyes on at his office is a stenographer in a clean shirt waist. If you think I don't notice the difference you're badly mistaken, my dear. Maybe he don't make eyes at the typewriter girl, maybe his love is so strong it don't affect his feelings the least bit, but all the same he notices it. And I wouldn't take the risk, honey. But—my, my!" the colonel was looking at his watch—"I can't stay here all day preachin' to you. I've got to get down to the office. "There isn't any real difference, honey. It's just appearances. You haven't lost any good looks since you married. But appearances have just as much to do with keepin' a man as they have with gettin' him, and the moral's appearance has more influence than the evenin', for it stays longer; it goes downtown and spends the day with him."

"Now, I'm not sayin', my dear, that a woman ought to rig up in her best

That would be no more right than for Bill to go down to work in a full dress suit. There's a thing for all things, as Shakespeare or Solomon remarked some time back, but I don't know of any proper time, honey, for absolute kimonoes, untied shoes and unkempt hair. STEPPED INTO SPACE

Thinking Station Had Been Reached Woman Passenger Falls 25 Feet

Bristol, Pa., Oct. 27.—Mrs. Samuel Hagoy, wife of a clerk in the Legdon carpet mills, misled by an announcement that a train on which she was a passenger had reached Bristol, but which had been stopped by a freight train at "Mechanics" creek, stepped from a car, fell a distance of twenty-five feet to the creek and was drowned.

None of the passengers knew that the car was standing on the trestle, and as Mrs. Hagoy, in the darkness, stepped off on the right-hand side of the car she stepped into space and dropped into the creek. As she fell she uttered a shriek that was heard by two sailors who were on the train and they immediately went to her assistance. When they reached Mrs. Hagoy it was found that in falling she had landed on her head and died in the mud on the bottom of the creek and death resulted from drowning.

THAW'S APPEAL DISMISSED

Lower Court's Action in Refusing Writ of Habeas Corpus Confirmed.

Albany, N. Y., Oct. 27.—The court of appeals dismissed the appeal of Harry K. Thaw, acquitted of the murder of Stanford White on the ground of insanity, from orders of the lower courts refusing to release him from confinement at the Matteawan State Hospital for the Criminal Insane.

The court's counsel, A. Russell Pearson, secured for a writ of habeas corpus to secure Thaw's release. Justice Mills declined to issue the writ and the appellate division upheld his decision. The court of appeals confirms the action of the appellate division.

It isn't a pleasure to saturate your stomach with vile nostrums nor to shock the tender membrane of the nose and throat with disagreeable sprays and douches.

But strange to say there are a few thousand people who do not keep abreast of the times who are hoping against hope that these ancient methods will rid them of catarrh.

JAPAN STUNNED BY ITO'S DEATH.

Japanese Statesman Is Shot
Down at Railway
Station.

ASSASSIN TAKEN BY POLICE

While Prince Ito Is Talking With
Other Officials the Murderer Ap-
proaches and Begins Firing Pistol.
Assassin Betrays No Excitement.

Tokio, Oct. 27.—Japan is stunned by the assassination of Prince Ito. The entire nation is mourning the death of the statesman, who had been placed at half mast, while all public and many private functions have been abandoned. The Japanese and foreign newspapers appear with black borders. Only the death of the emperor could arouse similar demonstration of sympathy. Perhaps Prince Ito's death causes more universal sympathy and grief because he was killed by the assassin as the great counselor of the emperor, the creator of the cabinet and the friend of the emperor himself.

Intimate friends of the murdered statesman are too stunned to discuss the situation, but they are of the belief that the death of the prince will have no immediate effect on the policy toward Korea, but that Prince Ito's wishes and hopes, probably, will influence the policies of Japan for many years to come.

Slain at Railroad Station.
Harbin, Manchuria, Oct. 27.—Prince Ito, the best known Japanese statesman, met his death at the hands of an assassin at the railway station here. He had come to Harbin

PRINCE ITO.

for the purpose of holding a conference with M. Kozlovoff, Russian minister of finance, in regard to the general railway situation in Manchuria, and had just descended from his railway carriage when he was shot.

A considerable crowd had gathered at the station and they gave Prince Ito a rather demonstrative welcome as he stepped on the platform. Prince Ito, smiling and bowing, had acknowledged their welcome and was engaged in conversation with the Japanese consul general here, who had gone to the station to officially receive him and the president of the South Manchurian railway.

The little party had just started to meet M. Kozlovoff, who was standing a short distance away, when suddenly a half dozen revolver shots were fired

by someone in the crowd. Instantly there was the greatest confusion. Many of the crowd rushed away in fear, while others crowded upon the platform in spite of the officials to drive them back.

Before the sound of the shooting had died away Prince Ito toppled over and fell to the platform unconscious. Doctors were hastily summoned. When they made an examination they found that three bullets had penetrated the prince's abdomen and they declared that there was absolutely no hope of saving his life. They advised against moving him and twenty minutes later, without regaining consciousness, the prince died.

Meanwhile the police present made a mad rush at the man who had done the firing. They had no difficulty in getting him, for after doing the shooting he made no attempt to escape, but with the still smoking weapon in his hand, stood calmly waiting to be arrested. Two other men who were with him stood quietly beside him until the police also took them into custody. When the police seized the assassin he exclaimed that he had come to Harbin from Korea for the express purpose of killing Prince Ito, because while the prince was resident general in Korea he had caused the execution of several of the assassin's relatives.

Neither the assassin nor his companions betrayed the least excitement. The latter, who are also Koreans, admitted that they had aided in the assassination because of the wrongs Japan had inflicted upon their country. They had no personal animosity against Prince Ito, but abetted his assassination simply from patriotic motives.

STEEL COMMON

Placed on 4 Per Cent Basis by Board of Directors.

New York, Oct. 27.—The common stock of the United States Steel corporation was put on a 4 per cent annual basis with the declaration of a 1 per cent distribution by the directors at their regular quarterly meeting.

The regular quarterly dividend of 14 per cent was also declared on the preferred stock. At the same time the quarterly statement of the company's financial condition was made public, showing that earnings for the quarter available for dividends on the common amounted to about 12 per cent a year. Throughout the statement made a better showing than any other quarterly statement since September, 1907, immediately preceding the panic.

The general anticipation had been that the steel corporation's statement of business done through the summer months might show some falling off, relatively at least, from the spring earnings, owing to the fact that the steel industry usually shows a subsidence in the hot weather.

TEN DAYS FOR HEINZE

Given Prison Sentence For Obstructing Administration of Justice.

New York, Oct. 27.—Arthur P. Heinze, brother of F. Augustus Heinze, was sentenced by Judge Ray in the United States circuit court to pay a fine of \$250 and to serve ten days in prison.

Heinze was convicted last June on the charge of obstructing the administration of justice by aiding the flight to Canada of Tracy Buckingham, a clerk in the offices of the United Copper company. Buckingham was under the subpoena of the federal courts at the time to testify before the federal grand jury concerning the removal and mutilation of the copper company's books, which were wanted by the district attorney for use in the investigation pending before the grand jury into the copper transactions of F. Augustus Heinze.

SAYS HE KILLED THREE

McMahon Confesses to Murdering Two Sisters and Brother-in-Law.

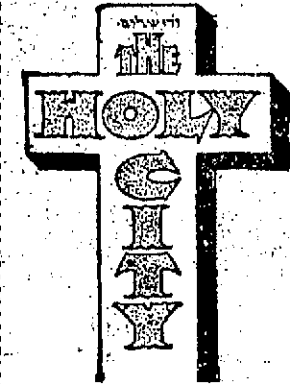

Kansas City, Mo., Oct. 27.—County Attorney Joseph Tappan of Wyandotte county announced that James McMahon had confessed that he had killed his brother-in-law, Alonzo Van Royan, and his sisters, Mrs. Maggie Van Royan and Miss Rosa McMahon. McMahon told the county attorney that he went to the woods where Van Royan was cutting wood and quarreled with him, drew a revolver and killed him. Then he went to where his sisters, Mrs. Van Royan and Rosa McMahon, were sitting in one room. Without telling them what had happened in the woods he quarreled with his sisters and shot them with the same revolver. There was such a crowd around the Wyandotte county jail and so many threats of lynching that Sheriff Becker and half a dozen deputies took McMahon to the state penitentiary at Leavenworth for safe-keeping.
